PLEASE NOTE:

Photos and illustrations are for inspiration only.
Not all product configurations are available in all countries.

Window blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a strangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products or products with inaccessible cords.

Features

Summary

Graber® Roller and Solar Shades offer a great selection of light and temperature controlling shades.

Roller Shades

- Wide variety of colors
- Wide variety of textures and designs
- Improved temperature control

Solar Shades

- 1% to 12% openness
- Excellent outward visibility
- Glare control

Features	Benefits
UltraLite Cordless Lift	<ul style="list-style-type: none"> • Precision placement — lower and raise the shade by moving the hem bar exactly where you want it. Ideal system for aligning shade height for multiple shades on the same wall • Light and smooth lift for all shade sizes • Aesthetically beautiful mounting hardware that hides mechanics • Shade is spring-loaded on each end and will self-center between brackets when installed • Streamlined appearance with no chains; ideal for homes with children or pets • Optional fabric wrapped square cassette valance or round cassette valance, contour valance, fascia, flat valance or wooden cornice
UltraLite Dual Lift (U.S. ONLY)	<ul style="list-style-type: none"> • Precision placement with two ways to operate the shade — lower and raise the shade by moving the hem bar exactly where you want it, or lower and raise by pulling on the chain • Light and smooth lift for all shade sizes • Choice of bead chain • One pull of the chain will raise the entire shade • Aesthetically beautiful mounting hardware that hides mechanics • Shade is spring-loaded on each end and will self-center between brackets when installed • Beaded chain remains at same length, regardless of chain position • Choose from five colors for the plastic chain, or stainless steel chain • Hold down device keeps chain taut for enhanced safety • Choose left or right chain location • Optional fabric wrapped square cassette valance or round cassette valance, contour valance, fascia, flat valance or wooden cornice
Enclosed Loop Dual Lift (Canada ONLY)	<ul style="list-style-type: none"> • Precision placement with two ways to operate the shade: 1) lower and raise shade by moving the hem bar exactly where you want it, or 2) raise the shade by moving the plastic grip toward the top of the window, then hold down the up-arrow button, while simultaneously pulling the grip down. Once you are at the bottom, release the button, reset the grip at the top, and repeat until your shade is at the desired height. To lower the shade, hold the down-arrow button and follow the same instructions. • Light and smooth lift for all shade sizes • Aesthetically beautiful mounting hardware that hides mechanics • Shade is spring-loaded on each end and will self-center between brackets when installed • Beaded chain remains at same length, regardless of chain position • Choose left or right chain location • Optional fabric wrapped square cassette valance or round cassette valance, contour valance, fascia, flat valance or wooden cornice
Enclosed Loop Lift (Canada ONLY)	<ul style="list-style-type: none"> • Spring-loaded idle for easy install • Enclosed Loop Lift features a chain cover and sliding handle to operate the chain loop easily and safely • Four clutch sizes depending on shade size • Beaded chain remains at same length, regardless of shade position • Choose left or right chain location • Optional fabric wrapped square cassette valance or round cassette valance, contour valance, fascia, flat valance or wooden cornice
Continuous Loop Lift (U.S. ONLY)	<ul style="list-style-type: none"> • Spring-loaded idle for easy install • Beaded chain and clutch system make raising and lowering shade easy • Four clutch sizes depending on shade size • Beaded chain remains at same length, regardless of shade position • Choose from five colors for the plastic chain or stainless steel chain • Hold down device keeps chain taut for enhanced safety • Choose left or right chain location • Optional fabric wrapped square cassette valance or round cassette valance, contour valance, fascia, flat valance or wooden cornice

Features

Summary

Graber® Roller and Solar Shades offer a great selection of light and temperature controlling shades.

Roller Shades

- Wide variety of colors
- Wide variety of textures
- Improved temperature control

Solar Shades

- 1% to 12% openness
- Excellent outward visibility
- Glare control

Features	Benefits
Cordless Lift	<ul style="list-style-type: none"> • Streamlined appearance with no chains; ideal for homes with children or pets • Shade raises and lowers smoothly and easily due to a unique dual braking system • Tension can be manually adjusted so shade always raises at desired speed • Color coordinated tassels facilitate easy operation and keep fabrics clean (wood tassels in Natural, Walnut, and Golden Oak are optional) • Optional clear hem grip available (not available with scallop option) • Optional contour valance, cassette valance (round), flat valance, or wood cornice
Smart Pull Lift	<ul style="list-style-type: none"> • Convenient easy glide lift system with a wand • Shade is lowered automatically with a single pull of the wand • Shade is raised to the desired placement with simple pull of the wand • Optional contour valance, cassette valance with fabric insert (round), flat valance, or wood cornice
Motorized Lift	<ul style="list-style-type: none"> • Window treatments can be operated from virtually anywhere in the home • Provides easy operation of hard-to-reach or larger windows • Operate multiple window treatments simultaneously or individually
Dual Shade (U.S. ONLY) or Enclosed Loop Dual Shade (Canada ONLY)	<ul style="list-style-type: none"> • Two shades are combined onto one bracket for complete privacy and light control • Each shade may be configured with roller and/or solar fabrics • Maximizes view to the outside with solar or sheer fabrics • Maximizes privacy with roller fabrics • Improves energy efficiency • Optional fabric wrapped large square cassette or large round cassette
Options	<ul style="list-style-type: none"> • Each operating system offers multiple valance and cornice options (surcharge applies) • Turning fabric width for height and seaming accommodates larger windows; available on select fabrics • Reverse roll: fabric rolls over the front of tube; standard: material rolls over the back • Hem bar: fabric-wrapped (standard) or sealed (optional with Continuous Loop Lift, Enclosed Loop Lift and Motorized Lift) • Projection brackets for Smart Pull Lift and Cordless Lift (no charge) • Hold down brackets (no charge) • Bay or corner shade • Motorized Lift • Fascia available in 3" and 4" heights
Commercial Solutions	<ul style="list-style-type: none"> • Side and sill channels (optional with Enclosed Loop Lift, Continuous Loop Lift, and Motorized Lift) • Low voltage motorized coupled shades • Pockets and closure plates
Total Room Coordination	<ul style="list-style-type: none"> • Total room fabric coordination of many fabrics for roller, solar, sliding panels, verticals, and pleated shades • Coordinate a room by using a single fabric for a mixture of window types and sliding doors • Cut yardage available
Scallop, Gimp, and Trims	<ul style="list-style-type: none"> • Create a customized look for roller shades
Warranty	<ul style="list-style-type: none"> • Limited lifetime warranty; five-year warranty on motorization components

Features

Roller Shade Fabrics

- Offer a solution for light control (sheer to blackout fabrics)
- Any room or decorating style
- Block damaging UV rays
- Coordinate with other product lines (vertical blinds, pleated shades, and sliding panels)
- "Fabric Width" is only a representation of the unfinished roll's usable width. See max/min tables for product size offerings.

NOTE: A black line may appear on front and back side of shade due to fabric and seaming process.

Features

Light Control and Privacy: Roller Shade Fabrics

Sheer*: Allows the most amount of light into the room for a minimum amount of privacy and a view to the outside. Objects in the room can be seen quite clearly through shades.

Privacy Level: Minimal

Light Filtering*: Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades, but details are not visible. Deep fabric colors provide moderate light control, while light colors provide lower light control.

Privacy Level: Moderate

Room Darkening*: Allows some light to filter into the room and provides privacy. Objects in a lit room seen through these shades appear as vague shapes. Deep fabric colors darken a room; light colors filter and diffuse bright sunlight.

Privacy Level: Complete

*These fabrics are translucent and their colors may be influenced by changing light conditions. Colors may appear to vary depending upon the time of day and type of lighting, as well as whether the shade is partially or fully lowered.

NOTE: Select roller weaves may have "pinpricks" of light showing through.

Blackout: Prohibits light from shining through and provides maximum privacy. Prevents shadows and silhouettes from showing through the fabric. All fabric colors provide maximum light control.

Privacy Level: Complete

Light Gaps: For optimal light and glare control, outside mount is recommended, or you may add a secondary soft window treatment (drapery or curtain) to hide the light gap on an inside mount. (Refer to light gap chart in this section.)

Privacy Level: Moderate

Features

Solar Shade Fabrics

Maintain an Outward View

- Filter and diffuse light while maintaining an outward view
- In general, the higher the openness factor and darker the fabric, the clearer the view

Manage Glare

- Minimize glare on televisions and home office computers
- The darker the fabric color, the better the glare control and the better the view to the outside

Block Damaging UV Rays

- The amount of UV ray blockage is the inverse of a fabric's openness factor (e.g., a fabric with 10% openness blocks 90% of UV rays)
- Protect your furniture, carpets, artwork, etc., from fading due to harmful UV rays

Reduce the Temperature

- Fabrics reduce heat transmittance, keeping rooms cooler and increasing the comfort level in the home
- The lighter the fabric color, the better the temperature control

NOTE: Solar shades do not offer nighttime privacy; lighted interiors allow inward visibility. If complete privacy is desired, a Dual Shade or secondary treatment is necessary.

Solar Optical Properties

When solar radiation reaches the shading fabric it is either reflected, absorbed, or transmitted. The sum of these values equals 100% of the solar energy hitting the fabric.

Features

Fabric Recommendations

Order all shades for the same room at the same time to ensure color consistency and minimize dye lot variation.

When displaying multiple shades in the same room, we recommend all shades be ordered with the same fabric orientation for a consistent look.

Fabric Disclaimers

Due to the nature of the weaving process, some imperfections in the weave are normal.

NOTE: Select roller weaves may have “pinpricks” of light showing through.

Roll direction cannot be reversed after a shade is ordered. Fabric appearance can vary based on changing light conditions in the room.

Fabric Width

The fabric width is narrower than the finished shade width of the tube and its components.

Light Gap

Smart Pull Lift with Contour Valance	3/16 to 1 5/16
Smart Pull with Flat Valance	3/16 to 1 5/16
Smart Pull Lift with Cassette (Round)	3/8 to 1

Cleaning and Care Information

Roller shade fabrics are virtually maintenance free. If the shade is dusty, simply vacuum over it using an upholstery attachment. A dusting cloth can also be used to gently remove dust. Shades may also be gently wiped with a clean damp cloth. Allow the shade to dry completely before raising. Do **NOT** completely immerse.

Solar shade fabrics are virtually maintenance free. Only periodic vacuuming and an occasional cleaning using a mild detergent, soft brushing, and thorough rinsing is required. Allow the shade to dry completely before raising. Do **NOT** completely immerse.

Large Window Sizing

Fabrics can be turned 90° clockwise (width for height) to accommodate wider windows. In these cases some solar fabrics can be seamed for longer heights. Fabrics turned width for height (referred to as railroaded) may curl along the edge. Springs Window Fashions performs extensive testing to ensure our customers receive high quality shades. On extremely wide shades, a slight V shape may appear in the center of the shade. This occurs due to the weight of the fabric and should be considered a normal characteristic.

Seams may be added to solar fabrics to accommodate long shade requirements. Seams are placed as close to the tube as possible; seam location is determined by the manufacturer. Seams may be visible when the shade is fully extended. Seaming is not available for Cordless Lift or Smart Pull Lift shades.

Pattern Alignment

Exact alignment of the fabric pattern across side-by-side shades is not possible. Vertical alignment of the shade fabric with cassettes is not possible. Fabrics with large repeat patterns are not centered on the shade.

Fabric Certifications

GREENGUARD Indoor Air Quality Certified® Fabrics: Many Graber® fabrics have been certified by GREENGUARD Environmental Institute (GEI) to be low chemical- and particle-emitting fabrics, which provides a healthier indoor air quality. The process used for certification complies with established indoor air quality standards and is performed by a third party lab. Please see graber.com for more information.

Cradle to Cradle Certified Design: Cradle to Cradle certification aims to transform all industries through ecologically intelligent design. That means the certified textiles are globally recognized to be safer and more sustainable.

Oeko-Tex® Standard 100 certifies that our fabrics are free of halogen, lead, formaldehyde, allergenic dyes, pesticides, phenols, and heavy metals, and meets all VOC content limits.

GREENGUARD Indoor Air Quality Certified is a registered trademark of the GREENGUARD Environmental Institute.

Oeko-Tex is a registered trademark of the Oeko-Tex Association.

Size Considerations

Maximum Shade Size

Cordless Lift Shade Maximum Size

If Shade Width Is at Least (inches)	Maximum Height of Shade (inches)
13 but less than or equal to 19	60
19½ but less than or equal to 24	78
24½ but less than or equal to 31	98
For shades greater than 31", see size considerations charts	

Smart Pull Lift Shade Maximum Size

If Shade Width Is at Least (inches)	Maximum Height of Shade (inches)
13 but less than or equal to 25	78
25½ but less than or equal to 32	98
For shades greater than 32", see size considerations charts	

Follow these easy steps to determine maximum shade size and valance size from the maximum shade size tables:

1. Determine your fabric style shade type, control type, and cassette type (round or square) valance, or no-cassette valance.
2. Find the fabric in the first column.
3. Follow the fabric row to the appropriate control type section (UltraLite Cordless Lift, UltraLite Dual Lift, Enclosed Loop UltraLite Dual Lift, Enclosed Loop Lift, Continuous Loop Lift, Dual Shade, Motorized Lift, Cordless Lift, or Smart Pull Lift).
4. Determine if your shade size is within the normal fabric orientation size range.
5. Identify the appropriate size valance for your shade size.
6. If your shade size is larger than either the maximum width or height range, your fabric may be able to be turned width for height for larger shades. Use the fabric turned width for height tables to determine this maximum size.

EXAMPLE 1: Determine the maximum allowable shade size and cassette valance for normal orientation shades. The example shade is 72" x 100", Arboretum BO fabric, Cordless Lift, with cassette valance.

1. Go to the Cordless Lift section.
2. Find Arboretum BO in the first column.
3. The maximum width and maximum height available for this configuration is 78" x 120".

NOTE: Both width and height must be less than the maximum width and height segment to fit the normal shade orientation.

4. Follow this segment to the top of the table. This segment is within the medium cassette valance size, indicating that the smallest segment cassette valance size available for this shade is a medium size cassette valance.

EXAMPLE 2: Determine the maximum allowable shade size and cassette valance for a continuous-loop shade. The example shade is 79" x 80", Exposition fabric, Enclosed Loop Lift with a large cassette valance. First, determine if the shade size is available with the requested fabric and control type.

1. Go to the continuous-loop section.
2. Find Exposition in the first column.
3. The maximum width and maximum height available for this configuration is 96" x 144". The 79" x 80" size does not exceed the Enclosed Loop Lift segment.
4. The 79" x 80" size does not exceed either the medium or large cassette segments. The smallest cassette valance size available for this shade is the medium cassette valance.

Dual Shades

The maximum size for Dual Shades is found using the Dual Shade column. Because two shades must fit into a single cassette valance, the Dual Shade requires the large cassette valance. Small and medium cassette valances are not available for Dual Shades.

Recommendation: For a consistent look in a single room, we recommend the same size cassette valance be used for every shade. Use the largest shade to determine the smallest available cassette valance size for that room. For example, if the largest shade in the room requires a medium cassette valance, then it is recommended all shades in the room use a medium cassette valance. The cassette valance size can be specified during ordering.

UltraLite Cordless, UltraLite Dual, & Enclosed Loop UltraLite Dual Lift Size Considerations

- In an effort to maximize product offerings, the following tables provide the maximum shade size available for each fabric and valance combination as determined by the fabric width
- Valance types available for UltraLite Cordless, UltraLite Dual, and Enclosed Loop UltraLite Dual Lift are shown in the chart key at the bottom right corner of each page in this section
- Some fabrics may be turned width for height (railroaded) to accommodate wide windows—See table for availability
- Shades ordered greater than a 1:6 ratio (W:H) risk telescoping

Minimum Shade Width: Varies by fabric

Minimum Shade Height: 13"

*S-Seaming **RR-Railroading	

Due to continuous manufacturing improvements, minimums and maximums are subject to change. Please call customer service for up-to-date size considerations.

Size Considerations

- This table provides the maximum shade size available by fabric, control type, and valance style
- Scallops decrease the maximum height by 6¼" on roller fabrics only
- if your shade size is larger than the maximum width, your fabric may be able to be turned width for height for larger shades
- Cassette valance and contour valance are options for Enclosed Loop Lift, Cordless Lift, and Smart Pull Lift
- Use the fabric turned width for height table to determine this maximum size

Minimum Shade Size

For all fabrics and lift options:

Minimum shade width and height: 13"

Valance Type	Normal Fabric Orientation												Fabric Turned Width for Height (Railroaded)

Due to continuous manufacturing improvements, minimums and maximums are subject to change. Please call customer service for up-to-date size considerations.

Seams may be added to fabrics to accommodate long shade requirements. See shade features charts for a list of fabrics that can be seamed. Seams are placed as close to the tube as possible; seam location is not selectable. Seams are visible when the shade is fully extended. This is not available for Cordless Lift or Smart Pull Lift shades.

NOTE: "NO RR" signifies a fabric that cannot be rotated 90 degrees in order to add to the maximum width for a shade.

Due to continuous manufacturing improvements, minimums and maximums are subject to change. Please call customer service for up-to-date size considerations. Seams may be added to fabrics to accommodate long shade requirements. See shade features charts for a list of fabrics that can be seamed. Seams are placed as close to the tube as possible; seam location is not selectable. Seams are visible when the shade is fully extended. This is not available for Cordless Lift or Smart Pull Lift shades. **NOTE:** "NO RR" signifies a fabric that cannot be rotated 90 degrees in order to add to the maximum width for a shade.

Size Considerations

- This table provides the maximum shade size available by fabric, control type, and valance style
- Scallops decrease the maximum height by 6¾" on roller fabrics only
- Only the large cassette valance is available for the Dual Shade
- Fabric turned width for height (railroaded) may curl along its edge; this is not a defect in the product
- Small and medium cassette valances are not available

Due to continuous manufacturing improvements, minimums and maximums are subject to change. Please call customer service for up-to-date size considerations. Seams may be added to fabrics to accommodate long shade requirements. See shade features charts for a list of fabrics that can be seamed. Seams are placed as close to the tube as possible; seam location is not selectable. Seams are visible when the shade is fully extended. Seaming is not available for Cordless Lift or Smart Pull Lift shades.

*Smart Pull Lift not available
NOTE: "NO RR" signifies a fabric that cannot be rotated 90 degrees in order to add to the maximum width for a shade.

Options

Shade Options (for surcharges and pricing, refer to price charts)

The following is a list of options for roller and solar shades. Options available with select styles and colors. Limitations are based on shade width and height. See detailed descriptions on the following pages.

Control Type Options:

For surcharge, see price charts

- Continuous Loop Lift (U.S. ONLY)
- Enclosed Loop UltraLite Dual Lift (Canada ONLY)
- UltraLite Cordless Lift
- UltraLite Dual Lift (U.S. ONLY)
- Cordless Lift
- Enclosed Loop Lift (Canada ONLY)
- Smart Pull Lift
 - Wand control
- Motorized Lift (see motorization price charts)

Shade Options—No Charge

- Chain color (Black, Brown, Gray, Stainless Steel, Vanilla, and White)
- Enclosed Loop UltraLite Dual Lift: stainless steel chain available
- Bay and corner windows
- Chain and Enclosed Loop Cover length depend on finished shade height. Customer can request a longer Enclosed Loop Cover or chain at time of order
- UltraLite Dual Lift: Bead chain
- Chain location
- Fabric turned 90° (width for height)
- Heat-sealed hem bar
- Hold down brackets
- Projection brackets 3¼" and 4"
- Reverse roll
- Returns for contour valance
- Returns for flat valance
- Seaming
- Reverse fabric
- Cassette valance inserts (different than shade)
- Cordless Lift: cord tassels or clear hem grip

Shade Options—Surcharge

- Square fabric wrapped cassette valance
- Round fabric wrapped cassette valance
- Contour valance
- Component size upgrade: clutch, tube
- Cut yardage
- Dual Shade or Enclosed Loop Dual Shade
- Fascia
- Flat valance
- Scallop and gimp
- Bead trim
- Wood cornice and valance (see cornice and valance price charts)
- Side and sill channels

Reverse Roll

- **No charge**
- Standard roll is where fabric rolls over the tube to the back
- Reverse roll is where the fabric rolls over the tube to the front
- Reverse roll not available with flat or round cassette valance, fascia valance, flat valance, or contour valance
- Roll direction cannot be changed after shade is manufactured

NOTE: For optimal privacy and light control, standard roll should be used.

Projection Brackets

- **No charge**
- Available with UltraLite Dual Lift, Enclosed Loop UltraLite Dual Lift, UltraLite Cordless Lift, Enclosed Loop Lift, Continuous Loop Lift, and Motorized Lift with cassette on outside mounts
- Available with Cordless Lift and Smart Pull Lift on outside mounts
- Not available when fabric is seamed
- Two sizes: 3¼" and 4"

Options

UltraLite Cordless Lift

- For surcharge, see price charts
- Proprietary lift system with precision placement - raise and lower the shade by moving the hem bar exactly where you want it
- Light and smooth lift for all shade sizes
- Aesthetically beautiful mounting hardware that hides mechanics
- Shade is spring loaded on each end and will self-center between brackets when installed
- Pull force can be manually adjusted
- A safer alternative for homes with children or pets
- Clear hem grip included
- Not available with scallop, sealed hem bar, or side and sill channels
- Optional square cassette valance, round cassette valance, contour valance, flat valance, fascia, or wood cornice
- Outside mount is recommended for maximum light control

Inside Mount Light Gap
(Refer to light gap chart.)

Enclosed Loop UltraLite Dual Lift (Canada ONLY)

- For surcharge, see price charts
- Precision placement with two ways to operate the shade: 1) lower and raise shade by moving the hem bar exactly where you want it, or 2) raise the shade by moving the plastic grip toward the top of the window, then hold down the up-arrow button, while simultaneously pulling the grip down. Once you are at the bottom, release the button, reset the grip at the top, and repeat until your shade is at the desired height. To lower the shade, hold the down-arrow button and follow the same instructions
- Light and smooth lift for all shade sizes
- Aesthetically beautiful mounting hardware that hides mechanics
- Self-centering for easy install
- Clear hem grip included
- Not available with scallop, sealed hem bar, or side and sill channels
- Chain and Enclosed Loop Cover length depend on finished shade height. Customer can request a longer Enclosed Loop Cover at time of order
- Bead chain remains at same length, regardless of shade position
- Enclosed Loop Cover provides the ability to keep the chain out of the reach of children and pets to enhance safety
 - Enclosed Loop Cover colors are selectable (White, Cream, Gray)
- Choose left or right chain location
- Optional square cassette valance, round cassette valance, contour valance, flat valance, fascia, or wood cornice
- Outside mount is recommended for maximum light control

Inside Mount Light Gap
(Refer to light gap chart.)

Options

UltraLite Dual Lift (U.S. ONLY)

- For surcharge, see price charts
- Proprietary lift system with precision placement with two ways to operate the shade - raise and lower the shade by moving the hem bar exactly where you want it, or raise and lower using the chain
- Light and smooth lift for all shade sizes
- Choice of bead chain
- One pull of the chain will raise the entire shade
- Aesthetically beautiful mounting hardware that hides mechanics
- Self-centering for easy install
- Clear hem grip included
- Not available with scallop, sealed hem bar, or side and sill channels
- Bead chain length is approximately $\frac{7}{8}$ of the length of shade; customer can request a longer chain length at time of order
- Bead chain remains at same length, regardless of shade position
- Color coordinated plastic bead chains are available (colors include: Black, Brown, Gray, Vanilla, and White)
- Safety chain guide provides the ability to keep the chain out of the reach of children and pets to enhance safety
- Choose left or right chain location
- Optional square cassette valance, round cassette valance, contour valance, flat valance, fascia, or wood cornice
- Outside mount is recommended for maximum light control

NOTE: When operating the shade in cordless mode, using your fingers to lift it too quickly will cause the shade to billow. This is due to the added tension that has been added to the chain. To raise the shade in cordless mode, we recommend you grasp the clear plastic grip in the same way you would to lower the shade, then lift slowly, with care.

Inside Mount Light Gap
(Refer to light gap chart.)

Continuous Loop Lift (U.S. ONLY)

- No charge
- Spring idle end standard; stationary idle end available
- Beaded chain and clutch system makes raising and lowering shade easy
- Bead chain length is approximately $\frac{7}{8}$ of the length of shade; customer can request a longer chain length at time of order
- Four clutch sizes depending on shade size
- Beaded chain remains at same length, regardless of shade position
- Color coordinated plastic bead chains and stainless steel bead chains are available (colors include: Black, Brown, Gray, Stainless Steel, Vanilla, and White)
- Safety chain guide provides the ability to keep the chain out of the reach of children and pets to enhance safety
- **NOTE:** Chain guide must be installed to operate shade.
- Choose left or right chain location
- Optional square cassette valance, round cassette valance, contour valance, flat valance, fascia, or wood cornice
- Outside mount is recommended for maximum light control

Inside Mount Light Gap
(Refer to light gap chart.)

Options

Cordless Lift

Inside Mount Light Gap
(Refer to light gap chart.)

- For surcharge, see price charts
- Shade raises on it's own after you pull down slightly and release the handle. To lower, pull the handle down to your desired position.
- Sleek look with no chains
- A safer alternative for homes with children or pets
- Shade raises and lowers smoothly and easily due to a unique dual speed braking system (shades less than 24" do not have a dual brake)
- Tension can be manually adjusted so shade always raises at desired speed
- Standard cord and tassels are color coordinated to fabric
- Optional wood tassels
 - Golden Oak 31
 - Natural 17
 - Walnut 10
- Optional clear hem grip (not available with scallop)
- Optional cassette valance with fabric insert (round), contour valance, flat valance or wood cornice
- Outside mount is recommended for maximum light control
- Cordless Lift is not available with Plexus 1%
- Optional cord ring pull in silver. Cord ring pull is compatible with optional Sky Pole, to maneuver cordless shades in hard-to-reach areas.

Enclosed Loop Lift (Canada ONLY)

Inside Mount Light Gap
(Refer to light gap chart.)

- No charge
- Spring idle end standard; stationary idle end available
- Beaded chain and clutch system makes raising and lowering shade easy
- Raise the shade by moving the plastic grip toward the top of the window, then hold down the up-arrow button, while simultaneously pulling the grip down. Once you are at the bottom, release the button, reset the grip at the top, and repeat until your shade is at the desired height. To lower the shade, hold the down-arrow button and follow the same instructions
- Chain and Enclosed Loop Cover length depend on finished shade height. Customer can request a longer Enclosed Loop Cover at time of order
- Four clutch sizes depending on shade size
- Beaded chain remains at same length, regardless of shade position
- Choose left or right chain location
- Optional square cassette, round cassette, contour valance, flat valance, fascia or wood cornice
- Outside mount is recommended for maximum light control
- Enclosed Loop Cover colors are selectable (white, cream, gray)

Options

Smart Pull Lift

Inside Mount Light Gap Varies by Side
(Refer to light gap chart)

- For surcharge, see price charts
- Patented Smart Pull Lift
- Wand control available
- Great for hard to reach areas (e.g., behind kitchen sink)
- To raise the shade, pull the wand gently
- To lower the shade, pull the wand with a small quick tug
- The shade lowers easily and automatically; to stop the shade while it is lowering, gently pull the wand again
- Hold down brackets are available
- Outside mount is recommended for maximum light control
- Optional cassette valance with fabric insert (round), contour valance, flat valance or wood cornice
- Smart Pull Lift with wand is not available with the following fabrics: Broadcast, Guildhall, Monticello, and Plexus

Motorized Lift

- See motorization product information guide for additional options, sizing, and pricing
- Allows for easy operation of hard-to-reach or large window coverings
- Efficiently manages energy (heat gain and loss)
- Motorized Lift shades are Cordless Lift and are a safer choice for homes with children or pets
- Low-voltage motorization requires no costly electrical hard-wiring
- Available with multiple power source options and various control types
- Line voltage for light commercial application must be installed by a certified electrician
- Hold down brackets not available
- Available with standard or reverse roll; cassette and fascia valance only available with standard roll
- A variety of valance types available
- Motor located on the left or right side; standard on the right

NOTE: Limited lifetime warranty—see motorization product information guide for motorization warranty details.

Options

Dual Shades

Dual Shade with Large Cassette Valance
NOTE: Enclosed Loop Cover is not pictured

Inside Mount Light Gap
(Refer to light gap chart)

For surcharge, see price charts

Dual Shades create versatile light control and privacy levels for any interior. The Dual Shade design integrates any two fabrics from the solar and roller collections, which can be independently lowered or raised as needed.

Combine the sheer, light-filtering, room-darkening, or blackout fabrics of your choice. Raise or lower each shade independently depending on time of day or need for privacy. Add a roller shade fabric to complement the room décor.

- Features the same Continuous-Loop (U.S. only), Enclosed Loop (Canada only), and Motorized Lift operation as our roller and solar shades

Recommendations

- Use the back shade or shade closest to the window for light regulation (recommended: solar, sheer, and blackout fabrics)
- For the front shade, select roller fabrics to match the room décor and maintain privacy
- Outside mount is recommended for maximum light control
- Select scalloped and trims for a finishing touch (roller fabrics only)
- All Dual Shades can be Continuous Loop Lift (U.S. only), Enclosed Loop Lift (Canada only), or low-voltage Motorized Lift
- Only stainless steel chains are available in Canada; stainless steel and color-coordinated bead chains are available in the U.S. in Black, Brown, and White
- Dual Shades can be configured with the 7½" noble and regal wood cornices for all configurations
- Optional large square cassette or round large cassette
- 5½" Noble and Regal wood cornices are available only when Dual Shade has no cassette with inside mount and cornices are outside mount
- Curved, classic, and symphony valances are not available
- UltraLite Cordless Lift, UltraLite Dual Lift, Enclosed Loop UltraLite Dual Lift, Cordless Lift, and Smart Pull Lift systems are not available
- Contour valance, flat valance, and fascia are not available
- Hold down brackets are not recommended for Dual Shades
- For Motorized Lift shades, the multi-channel remote control is recommended

Shade Configuration without Cassette Valance

- Front shade (closest to room) is always a reverse roll, providing a consistent, even look to the shade
- The back Dual Shade (shade closest to the window) can be a standard roll or reverse roll
- The front and back shade beaded chain can be positioned either left or right pull

Shade Configuration with Cassette Valance

- Because two shades must fit into a single cassette valance, the Dual Shade requires the large cassette valance; small and medium cassette valances are not available
- The fabric for the fabric-wrapped cassette valance is selectable, either front or back shade fabric
- Front and back shades are standard roll
- The front and back shade beaded chain can be positioned either left or right pull

		Standard Roll	Reverse Roll	Left Control	Right Control	Motorized Lift
No Cassette	Front shade	•	•	•	•	•
No Cassette	Back shade	•	•	•	•	•
Large Square Cassette/ Round Cassette	Front shade	•		•	•	•
	Back shade	•		•	•	•

To Price Your Order for Dual Shade

1. Select front shade control type (Enclosed Loop Lift or Motorized Lift), size, color, and options
2. Select back shade control type (Enclosed Loop Lift or Motorized Lift), size, color, and options
3. Add the front shade with options and the back shade with options
4. If desired, add large cassette or square cassette
5. Add the Dual Shade surcharge (see price charts for Dual Shades)

Options

Square Fabric Wrapped Cassette Valance

- For surcharge, see price charts
- Fabric-wrapped square cassette (available for a surcharge) presents a sleek, modern design
- Valance fabric is not oriented to the shade fabric (e.g., on a patterned fabric, the pattern of the shade fabric and that of the valance fabric will not necessarily align)

NOTE: The square cassette valance must be ordered at the same time as the shade

Square Cassette Valance Availability

The square cassette valance is determined by multiple factors. Available square cassette sizes by shade type are shown below.

	Small	Medium	Large
UltraLite Cordless Lift	•	•	•
UltraLite Dual Lift or Enclosed Loop UltraLite Dual Lift	•	•	•
Enclosed Loop or Continuous Loop Lift	•	•	•
Motorized Lift	•	•	•
Dual Shade or Enclosed Loop Dual Shade			•

Round Fabric Wrapped Cassette Valance

- For surcharge, see price charts
- A curved, sleek, aluminum-extruded, fabric-covered valance is available as a surcharge option
- Valance fabric is not oriented to the shade fabric (e.g., on a patterned fabric, the pattern of the shade fabric and that of the valance fabric will not necessarily align)

NOTE: The curved cassette valance must be ordered at the same time as the shade

Cassette Valance Availability

The cassette valance size is determined by multiple factors. Available cassette sizes by shade type are shown below

	Small	Medium	Large
UltraLite Cordless Lift	•	•	•
UltraLite Dual Lift or Enclosed Loop UltraLite Dual Lift	•	•	•
Enclosed Loop or Continuous Loop Lift	•	•	•
Motorized Lift	•	•	•
Cordless Lift	•	•	
Smart Pull Lift	•	•	
Dual Shade or Enclosed Loop Dual Shade			•

Contour Valance

- For surcharge, see price charts
- A contoured PVC valance is available for all shades
- Spline and returns are color coordinated
- Custom length returns are available from 2" to 5¼"
- The contour valance is not available with the Dual Shade or reverse roll
- Maximum width of the contour valance depends on the maximum width of the chosen fabric and if the fabric can be rotated
- A valance only option is available for select lift systems; single valance is available up to 144" in width to cover multiple shades with a single valance
- Valance fabric is not oriented to the shade fabric (e.g., on a patterned fabric, the pattern of the shade fabric and that of the valance fabric will not necessarily align)

NOTE: Returns can be trimmed to desired length with scissors or a utility knife.

The following fabrics are not available for railroading on contour valance: EcoEncore, PlanetSafe, LiveWell, Nantucket, Exposition, Quintessence, Sheffield, Thesis, Emporium, Bravado LF, Consummate Silk, Delphine LF, Delphine BO, Conservancy BO, Bravado BO, Manifest BO, Sahara Ridge, Terrain, Cloud Frost, Inkblot, Aberdeen BO, Canyon Ridge BO, Pannier, and Steel House

Options

Flat Valance

- Modern 5" high flat profile
- Custom length returns are available from 2"– 4¾"
- A Flat PVC fabric-wrapped valance is available for all shades
- Spline and returns are color coordinated
- The flat valance is not available with Dual Shade or reverse roll
- Maximum width of the flat valance depends on the maximum width of the chosen fabric and if the fabric can be rotated
- Valance fabric is not orientated to the shade fabric (e.g., on a patterned fabric, the pattern of the shade fabric and that of the valance fabric will not necessarily align)
- Flat Valance not available with the following fabrics: Debonair, Earth Synergy, Hamony, Riverbend, Sheffield, Tuvalu

NOTE: Returns can be trimmed to desired length with scissors or a utility knife. The following fabrics are not available for railroading on flat valance: Cloud Frost, EcoEncore, PlanetSafe, Sahara Ridge, LiveWell, Nantucket, Exposition, Quintessence, Terrain, Thesis, Emporium, Bravado LF, Consummate Silk, Delphine LF, Delphine BO, Conservancy BO, Bravado BO, Manifest BO, Inkblot, Aberdeen BO, Canyon Ridge BO, Pannier, and Steel House.

Hem Bar

Fabric-Wrapped Hem Bar

Sealed Hem Bar

Fabric-Wrapped Hem Bar

- **No charge**
- Standard option
- Fabric from the shade is wrapped around an aluminum hem bar
- Color coordinated end caps

Sealed Hem Bar

- Hem bar is completely enclosed within a heat-sealed pocket
- Clean, smooth look
- No exposed parts
- Used in light commercial applications or in residential situations where a slim profile is needed
- Not available with UltraLite Cordless Lift, UltraLite Dual Lift, Enclosed Loop, Dual Shades with Continuous Loop Lift, UltraLite Dual Lift, Cordless Lift, Smart Pull Lift, and scallop
- For available fabrics, see **fabric styles and information** section

Blackout Channels

- **For surcharge, see price charts**
- Blackout channels are extruded two-piece aluminum with synthetic pile inserts to eliminate light gaps
- Not available with dual shades, contour valance, cassette valances, flat valance, or 3" fascia without motorized lift
- Manual shades: available for use with SL10, SL15, SL20, SL30 clutches, and 4 fascia
- Motorized Lift shades: available with all motor types
- Blackout channels not available with external fabric-wrapped hem bar
- Side and sill channels need to be cut on site for appropriate fit

Colors

Black	939
Bronze	876
Clear Anodized	875
Vanilla	970
White	871

Options

Fascia

Fascia Is Shown with Brackets

- For surcharge, see price charts
- Aluminum-extruded fascia is available in 3" and 4"
- Notchless fascia available (not available with SL30 clutch)
- Not available with Smart Pull Lift, Cordless Lift, Dual Shades, and continuous fascia (one fascia for multiple shades)
- Color coordinated end covers are provided for outside mount
- Projection brackets are not available

Fascia Colors

Black	939
Bronze	876
Clear Anodized	875
Vanilla	970
White	871

NOTE: Fascia must be ordered at the same time as the shade.

Commercial Solutions

- Manual coupled shades
 - Available with all fabrics that can be seamed except Prodigy and Whitehall
- Motorized coupled shades
 - Available with low voltage RTS motors
 - Available up to 144"
 - Available up to three bands
- Pockets

Please contact your customer service representative for additional information and ordering.

Component Upgrade

- Accommodating larger windows: clutch and tube can be upgraded for uniform appearance
 - Clutch upgradesee price charts
 - Tube upgrade.....see price charts
- Components that can be specified for color include:
 - Fabric-wrapped hem barWhite, Bronze, Anodized
 - Clutch colorBlack, Brown, Gray, Vanilla, and White
 - Square cassette and round cassette end cap color for UltraLite Cordless Lift, UltraLite Dual Lift, Enclosed Loop UltraLite Dual Lift, Enclosed Loop Lift, and Motorized LiftBlack, Brown, Gray, Vanilla, and White
 - Cassette end cap color for Cordless Lift and Smart Pull LiftGray, White, Brown
 - Cassette and hem bar end cap colorBlack, Brown, Gray, Vanilla, and White
 - Enclosed Loop Cover.....White, Cream, and Gray

Clutches and tubes are determined by width, height, fabric, and overall shade weight. The chart below is a general guideline for when the various clutches and tubes are used. Certain applications may require the tube diameter to match in a room or the shades to have a different clutch.

For specific clutch, tube, and SA = Spring Assist SL10, SL15, SL20, SL30 = 1.25, 1.5, 2, 2.5 = Tube Clutch
 on the order, please contact customer service.

1" Teardrop Bead Trim

Fabric Cut Yardage

- For surcharge, see price charts
- Create matching pillows, table runners, or placemats
- Cut yardage fabric may not be exact match due to dye lot variations in fabric
- All fabrics are available (1 linear yard minimum)
- Cut yardage roller fabric may need to be ironed with a press cloth when received; do not iron solar fabrics
- Not recommended for upholstery
- Cut yardage is provided as is; there is no warranty regarding suitability in desired application

Trim Cut Yardage

- For surcharge, see price charts
- All trims are available (1 linear yard minimum)
- Cut yardage is provided as is; there is no warranty regarding suitability in desired application

Options

Corner Windows

- **No charge**
- Made as individual shades
- Each shade has its own control; we recommend opposite corners
- Indicate for each shade whether left or right, and butt or bypass
- Bypass shade is mounted into the corner; butt shade is butted to the other shade
- Manufacturer takes appropriate deductions for proper fit; **DO NOT** order as a corner shade if you do not want manufacturer to take deductions
- Valances create larger gap between shades
- Not available with side channels

Measuring Information

Mounting on a Wall or Molding

Measure the width of each window from the corner on the mounting surface (molding or wall) to the point you would like to cover.

Mounting Above the Molding

Measure the width of each window from the corner on the mounting surface to the point you would like to cover.

Projection measurement is the distance needed to clear any molding or obstructions that the shade will be mounted above.

NOTE: The projection (P) distance is needed to correctly calculate deductions for installations where the shades will use shims or projection brackets to clear molding. All projection distances must match for correct deductions to be calculated.

Options

Bay Windows

- No charge
- Made as individual shades
- Each section will have its own control
- Manufacturer will take appropriate deductions for proper fit; DO NOT order as a bay window shade if you do not want manufacturer to take deductions
- Not available with side channels
- Valances will create a larger gap between shades

Measuring Information: Three-Sided Bay Window

Measure:

L and R: Width of each side window from the corners on the mounting surface to the point you would like to cover.

C1: Width of the center window on the mounting surface from corner to corner.

Angle L-C1: Angle between the (L) and (C1) windows.
Angle C1-R: Angle between the (C1) and (R) windows.
Projection: If needed: The depth of the trim or molding the shade will be mounted above.

Measuring Information: Four-Sided Bay Window

Measure:

L and R: Width of each side window from the corners on the mounting surface to the point you would like to cover.

C1, C2: Width of each center window on the mounting surface from corner to corner.

Angle L-C1: Angle between the (L) and (C1) windows.
Angle C1-C2: Angle between the (C1) and (C2) windows.
Angle C2-R: Angle between the (C2) and (R) windows.
Projection (P): If needed: The depth of the trim or molding the shade will be mounted above.

NOTE: The projection (P) distance is needed to correctly calculate deductions for installations where the shades will use shims or projection brackets to clear trim or molding. All projection distances must match for correct deductions to be calculated. For additional windows on bays with up to five sides, continue with number progression for center shade sizes (C1, C2, C3...) and angles (angle C1-C2, angle C2-C3...) as needed. Measure each bay angle using a protractor or angle finder or use two business cards in each bay corner as illustrated above, trace on paper, and fax to customer service. The angle to use between adjacent center bay windows along a straight section of wall is 180° (degrees).

General Information

UltraLite Cordless Lift Shade Product Detail

Projection Bracket (optional)

- Medium 3 1/4"
- Long 4"

Flat Valance (optional)

- Fabric covered to match shade

Flat Valance Returns

- Color coordinated and fabric covered to match shade

Contour Valance (optional)

- Fabric covered to match shade

Contour Valance Returns

- Color coordinated and fabric covered to match shade

Fascia Bracket

- Secures shade and fascia
- Can be top, side, or back mounted
- Color coordinated end covers are provided for outside mounts

Fascia (optional)

- 3" and 4" sizes
- Available in Black, Bronze, Clear Anodized (Silver), Vanilla, and White
- Must order with shade

Square Cassette Valance (optional)

- Fabric wrapped aluminum square cassette presents a sleek modern design
- Shade is assembled in the aluminum cassette valance, one piece installation with brackets
- Square end caps color coordinated to fabric
- Cassette must be ordered with shade

Round Cassette Valance (optional)

- Cassette valance, curved aluminum and fabric wrapped with shade fabric
- Shade is assembled in the aluminum cassette valance, one piece installation with brackets
- End caps color coordinated to fabric
- Cassette must be ordered with shade

Mounting Bracket

- Universal bracket for control and idle end
- Color coordinated to shade fabric can be top, back, or side mounted
- Aesthetically beautiful mounting hardware that covers and hides shade mechanics

Self-Centering Plunger

- Self-centering for easy install

Shade Fabric

- Roller styles ranging from light- and dark-colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1% to 12% openness

Hem Bar

- Fabric-wrapped hem bar
 - Front—fabric covered
 - Back—color coordinated to shade fabric
 - Clear hem grip included

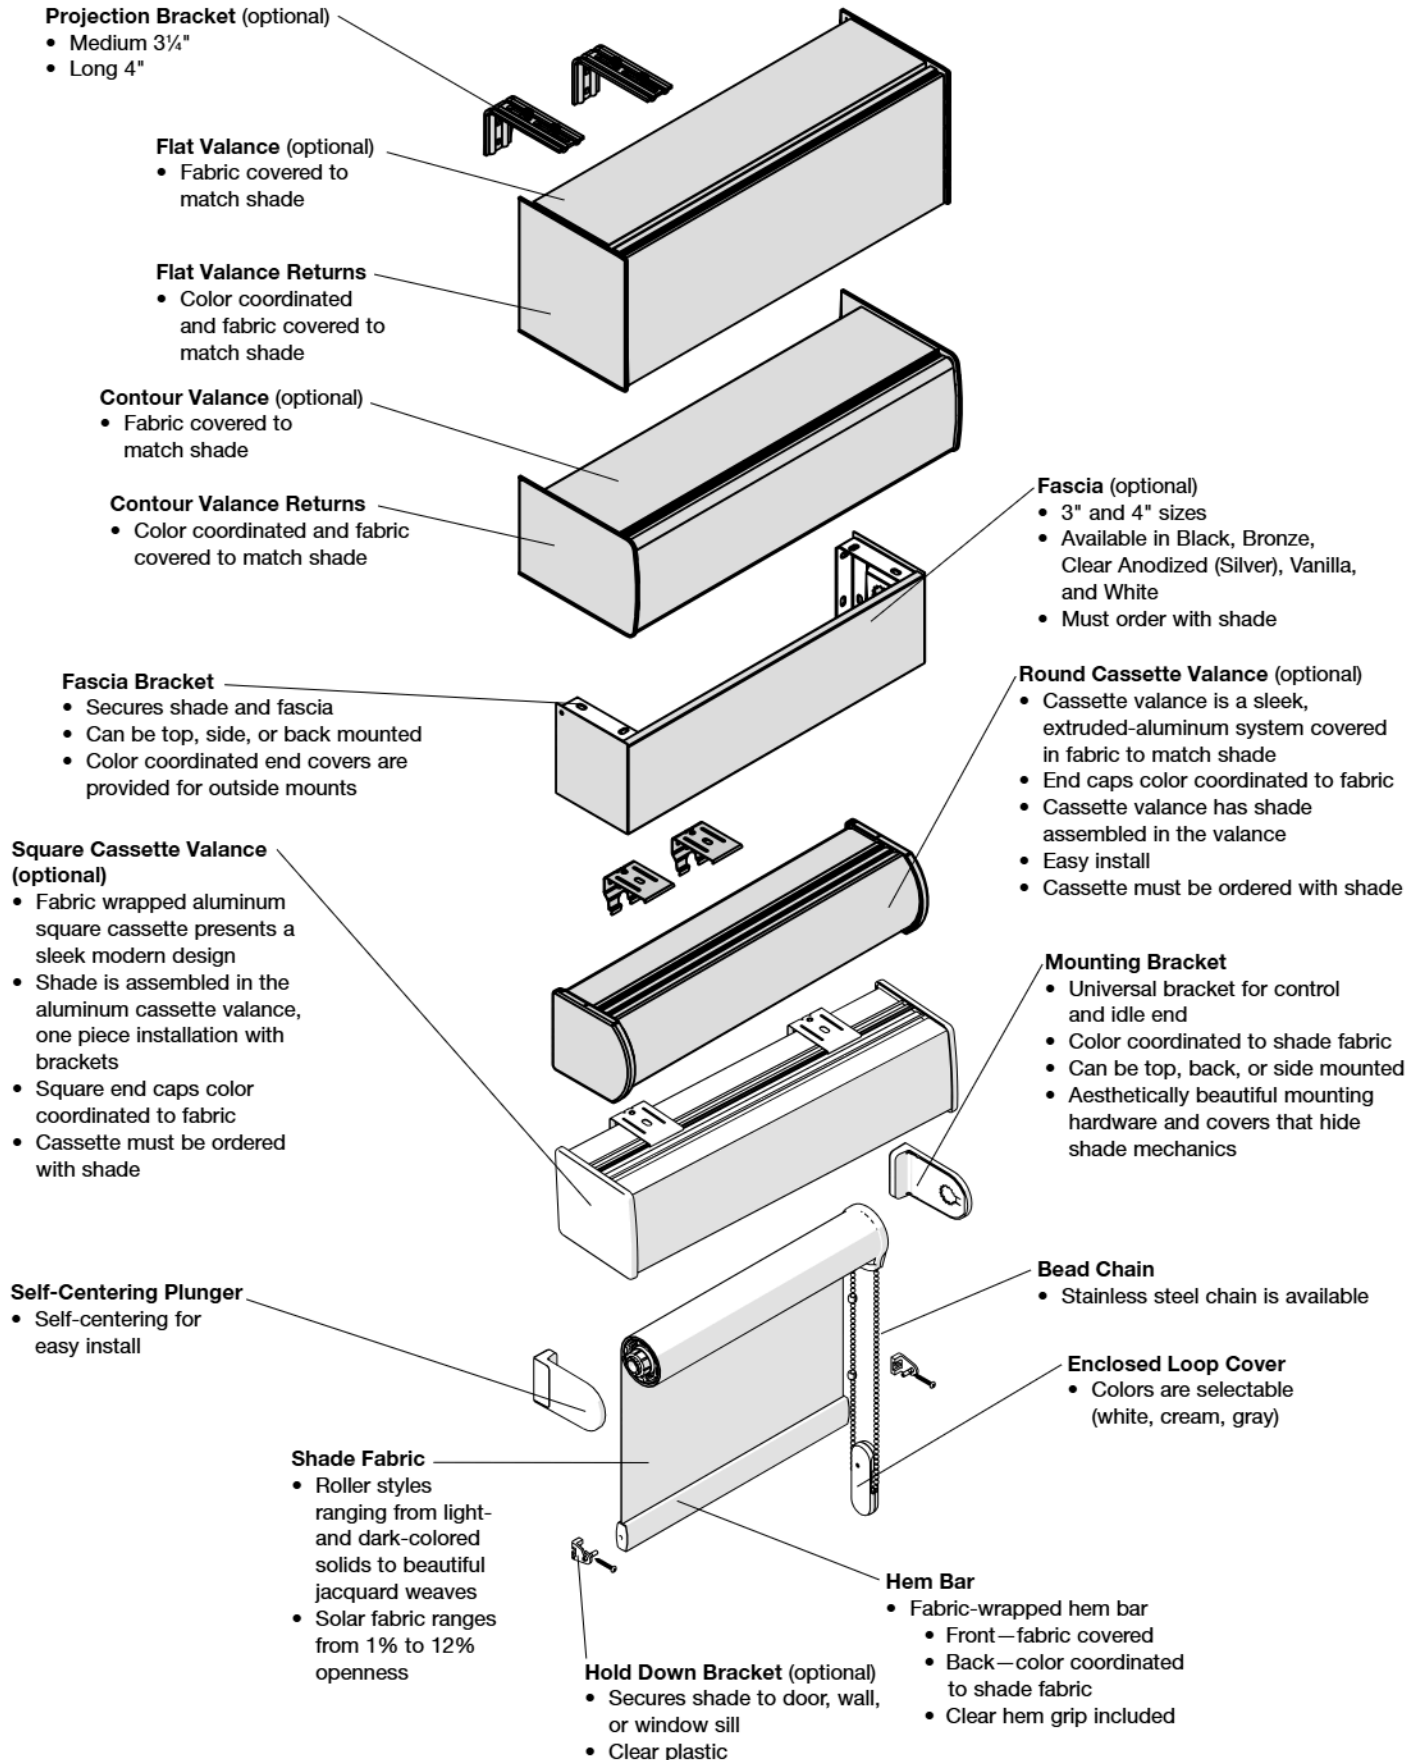

Hold Down Bracket (optional)

- Secures shade to door, wall, or window sill
- Clear plastic

NOTE: Cordless lift shades should only be used on windows where consumers can comfortably raise and lower the shade with their hand and have easy access. Very high or hard-to-reach should use UltraLite Dual Lift, Enclosed Loop UltraLite Dual Lift, Enclosed Loop Lift, Continuous Loop Lift, Smart Pull Lift or Motorized Lift shades, rather than Cordless Lift.

General Information

Enclosed Loop Dual Shade Product Detail (Canada ONLY)

Dual Shade Shown with Square Cassette Valance

Cassette Valance Brackets

- Shade cannot be side mounted
- Hidden snap-in design
- Facilitates easy installation and removal of shade

End Cover for Cassette Valance

- Conceals and coordinates bracket hardware
- Five colors: Black, Brown, Gray, Vanilla, and White
- Color coordination is matched to front shade

Beaded Chains

- Stainless steel chain is available
- Chains can be the same side or opposite sides of front and back shade

Enclosed Loop Cover

- Colors are selectable for front or back shade (white, cream, gray)

Square Cassette Valance (optional)

- Fabric wrapped aluminum square cassette presents a sleek modern design
- Shade is assembled in the aluminum cassette valance, one piece installation with brackets
- Square end caps color coordinated to fabric
- Order Large with Dual Shade

Shade Fabric

- Roller and solar styles ranging from light- and dark-colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1% to 12% openness

Hem Bar

- Front of hem bar—fabric covered
- Back of hem bar—color coordinated to shade fabric

Round Cassette Valance (optional)

- Cassette valance, curved aluminum and fabric wrapped with shade fabric
- Shade is assembled in the aluminum cassette valance, one piece installation with brackets
- End caps color coordinated to fabric
- Order Large with Dual Shade

Dual Shade Shown without Cassette Valance

Dual Shade Bracket

(without cassette valance)

- Side, ceiling, or back mount
- Color coordinated to shade fabric

Bracket Cover

(without cassette valance)

- Conceals and coordinates bracket hardware
- Four colors: Black, Gray, Vanilla, and White
- Color coordination is matched to front shade

Beaded Chains

- Stainless steel chain is available
- Chains can be the same side or opposite sides of front and back shade

Hem Bar

- Front of hem bar—fabric covered
- Back of hem bar—color coordinated to shade fabric

Shade Fabric

- Roller and solar styles ranging from light and dark colored solids to beautiful jacquard weaves
- Solar fabric ranges from 1% to 12% openness

Enclosed Loop Cover

- Colors are selectable for front or back shade (white, cream, gray)

Control Lengths for Enclosed Loop Cover

Finished Shade Height (inches)	Enclosed Loop Cover Length (inches)
up to 36	18
36½ - 48	24
48½ - 60	36
61½ - 72	48

Finished Shade Height (inches)	Enclosed Loop Cover Length (inches)
72½ - 84	60
84½ - 96	72
96½ - 108	84
108½ - 120	96
120½ - 144	108

NOTE: Enclosed Loop Cover length in relation to the final shade length will vary between +/- 3 to 6 in. based on size of shade.
