

Motorized Woven Wood Shades

FEATURES & BENEFITS

- Natural woven wood shades - now with cordless motorized operation
- Radio frequency remote control lets you lift and lower your shades from anywhere in the house with the push of a button
- Economical battery powered motors can be recharged up to 500 times for many years of reliable service
- Battery charger included with shade purchase
- Multiple shades can be controlled by a single remote control - up to 16 shades
- There are no cords that can twist and create a hazard for children and pets - No physical operating controls
- Natural woven wood shades are made of bamboo and other natural materials, which are woven on hand fed looms
- Kiln drying minimizes warping of the natural material
- Classic roman style shade construction is practical and reliable - shades lift evenly and stack into neat folds
- Unlined, yet gently filters light, but provides substantial privacy
- Integrated valance conceals the operating mechanism
- All installation hardware included

Available in 5 materials/colors:

- Bayhead/Natural
- Eastfield/Teak
- Sarasota/Camel
- Winthrop/Camel
- Hatteras/Camel

SPECIFICATIONS

Minimum & Maximum Widths & Lengths:

	Minimum	Maximum
Width	20" W	72" W
Length	24" L	72" L

Due to the natural characteristics of the product, there may be a 1/2"-3/8" variance on length.

Head Rail Dimensions:

Depth	2 ³ / ₈ " deep
Height	5 ⁵ / ₈ " high

Minimum Depth Requirements:

Inside Mount	1 ³ / ₄ "
Inside Flush Mount	2 ³ / ₄ "

Standard Factory Deductions:

Inside Mount	3 ³ / ₈ " (3 ³ / ₁₆ " per side)
Outside Mount	0"

Stack Height

9¹/₂"

Your woven natural shade is made with materials harvested from nature. Each harvest of natural fibers is unique and will have variations in color, grain, texture, striations and warping. As a result of these inherent qualities, no two shades are identical, nor can they be.

Over time, exposure to light will soften and slightly darken the color of the shade. Small cracks in bamboo slats are natural and unavoidable.

This product is designed to make your shade safer for children and pets by eliminating the operating cords. However, there is a double cording system on the back of the shade. This construction is substantially different than the traditional shades that you might be accustomed to, but helps eliminate the possibility of a child or pet becoming entangled in the cords.
